

## Isle of Thanet Photographic Society

### Summer Project 2021

Your challenge this summer is to produce one photograph for each of the eight subjects listed below. You can interpret the subject in any way you like providing it clearly relates to the subject.

Your entries must be taken in the summer recess period, from 15<sup>th</sup> June to 5<sup>th</sup> September 2021, so no dusting off old archive photos!

All entries must comprise at least 80% of the total subjects (i.e. 6 of the 8 subjects listed below).

Entries must be correctly resized to maximum 1600 X 1200 pixels, (please note that if in portrait (upright) format maximum height is 1200 pixels) titled with just the subject and your name then submitted via the IOTPS website. Example file name would be "PAIR by Joe Bloggs.jpg" or "UNIFORM by John Smith.jpg" - no fancy titles please - just the subject name - this will help the competition secretary enormously.

The following are the 8 set subjects for the Summer Project (only one digital image per subject please)

- P** Pair
- I** Isolated
- C** Collection
- T** Technology
- U** Uniform
- R** Rain
- E** Event
- S** Shadow

Images must be uploaded by midnight on 6<sup>th</sup> September via the website. On the competition evening, which will be 20<sup>th</sup> September, everyone will get a score sheet. You'll need to put your name on the sheet and definitely no scoring your own entries I'm afraid!

The completed sheets are sent to the competition secretary. Over the course of the next week, the scores will be amalgamated to arrive at the winner of each section and then the overall winner.
